SUMMARY

Dynamic software engineer with a proven record of delivering smart digital solutions, leading projects from concept to deployment across manufacturing and tech industries. Adept at blending development, quality assurance, and strategic execution to drive real business results.

EXPERIENCE

Innovators Den SMC Pvt Ltd.

Aug 2024 – Present

SQA , Software Developer & Project Manager

Faisalabad

- Develop dynamic and responsive user interfaces using React.js, SASS/SCSS, and JavaScript/jQuery for enhanced user experiences.
- Perform mid-layer development and integrate APIs to ensure seamless data flow and real-time performance optimization.
- Developed and integrated backend modules in PHP, ensuring secure and efficient interaction between front-end applications and databases.
- Utilized ChatGPT prompting to accelerate backend development, optimize PHP code, and generate maintainable solutions for complex business logic.
- Automated routine backend coding tasks with AI-assisted workflows, improving delivery speed and reducing error rates.
- Designed and tested PHP-based APIs to support real-time data exchange and seamless frontend–backend integration.
- Leverage expertise in WordPress to design, customize, and maintain robust website solutions.
- Execute comprehensive SQA software quality assurance (manual) to ensure high functionality and reliability of applications.
- Conduct rigorous testing processes to identify and resolve performance bottlenecks, ensuring smooth and efficient operations.
- Managed end-to-end project lifecycles, from requirement gathering to delivery, ensuring timely and budget-compliant execution.
- Handled client communication and onboarding processes with clarity and empathy, aligning closely with tasks typical of academic admissions and student engagement.
- Facilitated Agile ceremonies including daily standups, sprint planning, and retrospectives.
- Tracked team progress using Jira, maintaining sprint velocity and timeline adherence.
- Collaborated with developers and product owners to ensure backlog readiness and scope clarity.
- Identified and removed blockers to maintain delivery flow and team productivity.
- Maintained project documentation, sprint boards, and reports for internal and client communication.
- Coordinated across cross-functional teams (design, QA, dev) to deliver scalable web solutions.

Tech Hub (Internship & Job)

Nov 2023 – Jul 2024

Frontend web Developer & SQA

Faisalabad

- Designed and implemented dynamic, user-friendly interfaces with React.js, enhancing user engagement and interactivity.
- Utilized SASS/SCSS to create modular and maintainable CSS, streamlining design updates and scalability.

- Enhanced website interactivity and functionality through advanced JavaScript and jQuery implementations.
- Conducted thorough cross-browser testing to ensure compatibility and seamless performance across multiple platforms
- Performed software quality assurance and optimized application performance with real-time updates to deliver efficient and reliable solutions.

AA Computer (Internship)

Feb 2021 – Jun 2021

WordPress Web Customization

Faisalabad

- Developed and maintained numerous WordPress websites, ensuring responsive design, user-friendly interfaces, and optimized performance to enhance user experience and engagement.
- Collaborated with clients to understand their needs and deliver customized website solutions, resulting in improved client satisfaction and repeat business.
- Managed project timelines and deliverables, coordinating with cross-functional teams to ensure successful implementation and completion of web development projects.
